

Accelerated Android™ Development

Android to grab No. 2 spot by 2012, says Gartner.

With assistance from Cybercom you can gain strength and improve market competitiveness. Cybercom provides an agile development environment, fulfilling all delivery needs as well as all maintenance aspects.

Accelerated Android™ Development

On-site, Off-site, Competences and Capacity

By choosing Cybercom as your selected Android™ development partner you can reap the full advantage of the Cybercom hallmark: Local Presence Global Reach.

Cybercom is offering a blended delivery set-up consisting of:

- an experienced core team located on-site
- a large off-site team residing in one of our development sites

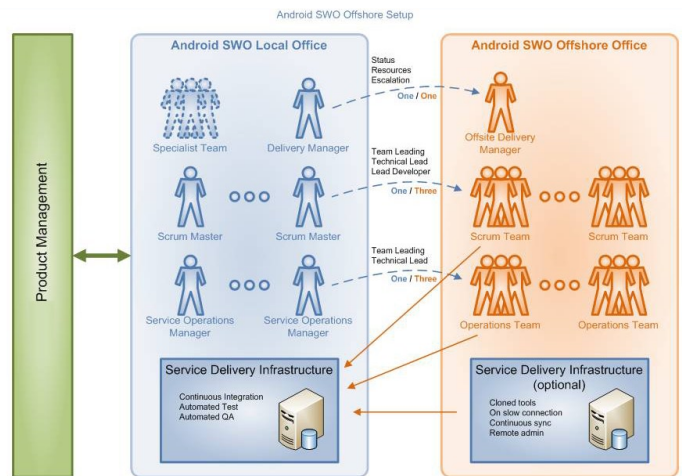

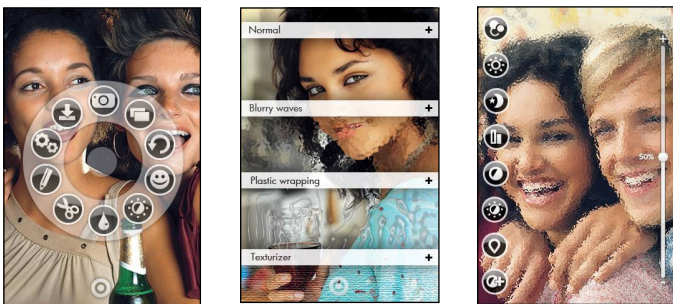

By choosing Cybercom as your selected Android™ development partner you will benefit from:

- a partner that has the specialists competences and a high capacity
- a partner that has the experience from deploying blended offshore deliveries
- a partner that can secure quality and delivery – with fine tuned project model
- a partner that is flexible and committed to support in the best of ways

We see that flexibility is a key factor, enabling our customers to scale up and down and to adjust activities and time plans depending on specific needs and requirements as well as to work integrated in the customers development process to ensure quality.

Cybercom experience base

Cybercom works with all players in the mobile arena including chipset vendors, device manufactures, network equipment providers and operators, giving us a vast understanding of the whole mobile market and its mechanisms.

About Cybercom

The Cybercom Group is a high-tech consultancy that offers global sourcing for end-to-end solutions.

The Group established itself as a world-class supplier in security, internet and mobile services, as well as embedded systems. Thanks to its extensive industry and operations experience, Cybercom offers strategic and technological expertise to these markets: telecom, industry, media, public sector, retail, and banking and financial services.

The Group employs about 1800 persons and runs projects worldwide. Cybercom has 28 offices in 11 countries. Since 1999, Cybercom's share has been quoted on the NASDAQ OMX Nordic Exchange. The company was launched in 1995.
