## **Alma Media has selected Cybercom as its Amazon Web Services (AWS) partner**

**Alma Media Corporation has selected Cybercom's Passionate Support for AWS as the maintenance solution for its cloud platform. The agreement is valid until further notice and includes 24/7 on-call services, infrastructure and architecture design of AWS environments, and implementation.**

"Developing digital capabilities in media services is an ongoing and continuous process. Efficient and agile utilisation of cloud platforms opens up new opportunities for our media and service brands. Cybercom's cloud platform expertise is excellent and we trust their ability and their experience as an AWS support service provider," says Simo Syrjänen, CTO, Alma Media.

Alma Media is a media company focusing on the service business and journalistic content. The company's best-known brands are KauppaLehti, Talouselämä, Affärsvärlden, Iltalehti, Aamulehti, Etuovi.com and Monster. Alma Media builds sustainable growth for its customers by utilising the opportunities of digitality, including information services, system and expert services and advertising solutions. Alma Media's operations have in the recent years expanded from Finland to the Nordic countries, the Baltics, and Central Europe.

"This agreement with Alma Media is the next step in the growth of our Passionate Support for AWS support service. The functionality of Cybercom's long-term client strategy and collaboration based on partnership played a key role in the agreement struck with Alma Media. Our collaboration is well established and we are now happy to take the next step in the support services for the AWS cloud platform," says Veli-Matti Nurminen, Managing Director, Cybercom Finland.

Amazon Web Services is one of Cybercom's key cloud partners. Cybercom is an AWS Advanced Consulting Partner and an official reseller in the public and private sectors.

### **About Cybercom**

Cybercom is an IT consultant that assists leading companies and organisations to benefit from the opportunities of the connected world. Each individual employee is a win for us. It is our employees who drive forward Cybercom's development. Our consultants, and the solutions we create, take us all the way from public sector e-services in Sundsvall, Stockholm and Helsinki to operators and mobility in the Caribbean islands, via the UN Global Compact, driverless cars, national electronic identification, connected sewing machines and elevators. The company's areas of expertise span the entire ecosystem of communications services and security. Cybercom's domestic market is the Nordic region, and in addition the company offers global delivery capacity for local and international business. Cybercom was founded in 1995.
