Swedish Tax Agency chooses Cybercom

The Swedish Tax Agency (Skatteverket) has signed a framework agreement with Cybercom for consulting services in the municipalities of Gothenburg, Solna and Östersund. The agreement runs for one year with an option for a further one year. The total value of the framework agreement is estimated to be SEK 150 million. Cybercom is one of ten selected providers.

“We are very pleased with the renewed business from Skatteverket. This is an agency that effectively takes advantage of the opportunities of the connected world and we are proud to contribute to its development,” says Pär Abelson, Account Manager, Cybercom.

The Tax Agency’s IT departments are located in Solna, Umeå, Gothenburg, Västerås, Östersund and Visby with a total of approximately 750 employees. The framework agreement also covers the Swedish Enforcement Administration (Kronofogdemyndigheten) and the Eidentification Board (e-legitimationsnämnden).

“The public sector is an important area for us, where our commitments are growing in scope. The continued business from Skatteverket consolidates our position. The new agreement also allows us to work with Skatteverket in Gothenburg and Östersund, which we believe offers great potential,” says Bo Strömquist, Head of Sales, Cybercom.
